

ADULT2019 Addendum 1: Letter of Intent Instructions

The Letter of Intent is encouraged but NOT REQUIRED and not binding. These letters are encouraged in order to facilitate planning for the review process, and should include the name of the organization that intends to submit a proposal; the service area to be addressed; the approximate funding level to be requested; and the name and contact information for the lead point of contact with the organization.

Letters do not need to be signed by the Executive Director, and can be submitted by email.
